

REMARKS

This Response is in response to the Notice of Drawing Inconsistency with Specification dated July 1, 2008. In the Notice of Drawing Inconsistency with Specification, the Patent Office states that an inconsistency exists between the drawings and the Brief Description of the Drawings in the specification in that Figure 7 is listed in the Brief Description of the Drawings in the specification but not contained in the drawings. Pursuant to the deletion of the language in the specification referencing Figure 7 in this Response, Applicants have corrected the inconsistency between the figures as filed in the above-identified patent application and the language identifying the figures in the specification of the above-identified patent application. Applicants believe that this change is consistent with the Examiner's request. No new matter has been added thereby. Therefore, Applicants believe that they have been responsive to the Notice and further submit that the present application is in condition for allowance.

The Commissioner is hereby authorized to charge deposit account 02-1818 for any fees which are due and owing.

Respectfully submitted,

BELL, BOYD & LLOYD LLP
